MORE TROUBLE AHEAD FOR SPAIN.

Riot Breaks Out at Talavera and Cars Are Burned and Houses Set on Fire.

STATE OF SIEGE IS ON AT GIJON.

Martial Law Declared Throughout the Province of Valencia and a Cabinet Crisis Imminent.

SAMPSON'S FLEET HAS SAILED FROM KEY WEST.

It Is Believed Some Important Move Is to Be Made—Lee Made Major General—No Word From Commodore Dewey.

Dewey's dispatch boat has reached Mirs bay, near Hong Kong.

Disturbances continue in Porto Rico. The cruiser New Orleans has been attached to the flying squadron. Sampson's fleet has sailed from Key West and has sailed again from Key West. The British consul at Santiago de Cuba shoots into a mob, killing one Spaniard and serious trouble may result.

President McKinley makes General Fitzhugh Lee a major general in the army.

President Dole tenders to the United States the Hawaiian islands for use in the war with Spain.

Riot occurred at Talavera, Spain. Cars were burned and houses set on fire.

Siege has been declared at Gijon. Martial law declared throughout Valencia province.

RIOT IN SPAIN.

Seige Declared at Gijon and a Cabinet Crisis Is Pronounced Imminent.

Madrid, May 4.—A riot has occurred at Talavera. The railroad station was seized, cars burned and several houses were set on fire.

A state of siege has been declared at Gijon, a fortified seaport on the Bay of Biscay, pillage being threatened. Martial law has been declared throughout the province of Valencia, and further disturbances are reported. It is believed the resignation of the Spanish cabinet is imminent.

CABLE STILL BROKEN.

Hong Kong Cannot Establish Communication With the Philippine Islands.

London, May 4.—Inquiries at the office of the Eastern Telegraph company show that at noon, London time, the Hong Kong-Manila cable was still interrupted. The reported surrender of Manila, while probably true, is as yet only conjecture.

SAMPSON'S FLEET SAILED.

Some Important Strike Is Ahead Is the Belief That Exists at Key West.

Key West, May 4.—This harbor is again empty. Admiral Sampson's fleet has sailed and the situation is one of renewed expectancy. There is a strong impression prevailing that the next news from the fleet will tell of an important engagement of the same character as the Asiatic squadron's Manila victory.

OFFERS HAWAIIAN ISLANDS.

President Dole Tenders Them to the United States For Use of Its Fleet.

Honolulu, April 27, via San Francisco May 4.—President Dole has sent a long communication to President McKinley offering to transfer the Hawaiian islands to the United States for purposes of its war with Spain, and furnish American ships of war in Pacific waters with large quantities of coal, supplies and ammunition.

NO MONEY OR MEN.

Dix Stops Spaniards From Raising Money and Volunteers For Spain.

City of Mexico, May 4.—The government has stopped the contemplated meeting of Spanish clerks here for the purpose of raising money and volunteers for Spain.

There has been great excitement here over the American naval victory, and its moral effects will be great, for Spanish local papers and other journals under Spanish influences have confidently anticipated a triumph for Spain in the first encounter on the ocean. Resident Europeans, who have been predicting the defeat of the Americans, are chagrined. There is intense commercial jealousy of Americans, and this hostile sentiment is displayed in the newspapers here. Spaniards are predicting an unexpected blow by their cruisers at some point on the Atlantic coast.

Turkey Is Neutral.

Constantinople, May 4.—Turkey has notified United States Minister Angell that she will maintain neutrality.

Would Welcome Any Intervention.

London, May 4.—The principal Manila merchants here, who have been interviewed on the subject, agree that their latest letters show that the Philippine island merchants would be pleased to have the revolt ended, and will view with equanimity America's future action there. They all gladly hail the end of the condition of things which the merchants say is quite as bad as in Cuba.

Left Before the Battle.
Hong Kong May 4.—United States

Says He Will Help Dewey.

New York, May 4.—A Hong Kong correspondent of The World says: "Chief Aguinaldo has arrived and had a conference with Consul Weidman. He has agreed to submit to Commodore Dewey's orders, and will conduct the land forces, and with 50,000 scolded insurgents effectively back up Dewey when he gains control of Manila. He has promised to act in a human way."

Disturbances Continue in Porto Rico.

St. Thomas, West Indies May 4.—The latest advices from Porto Rico show the disturbed condition of the island continues. The people are leaving and political arrests are being made. The United States authorities are negotiating for more coal here.

AN IMPORTANT MOVE.

Many of Sampson's Fleet Coaling For Some Great Strike.

New York, May 4.—A special to The Tribune from Key West, via Tampa says:

Indications here point to an important move by part of the North Atlantic squadron at an early day. Rear Admiral Sampson's fleet has arrived to coal. They are the flagship *New York*, the *Indiana*, the *Iowa*, the *Cincinnati*, the *Detroit*, the *Mayflower* and the *Marblehead*. It seems unlikely that so few vessels would have been left to maintain the blockade were it not desired to have the strongest boats in condition to remain for some time away from the base of supplies.

The Puritan has been here for several days, but is understood to be in readiness to sail.

The Amphitrite took on coal last week, going to the Cuban coast on Saturday. It will not be necessary for the Terror to come in as she was coaled several days ago. She was anchored near the Cuban shore and the coal was lowered from a schooner. It is not difficult to fill a monitor's bunkers this way in a quiet sea, her deck being so low.

Admiral Sampson has received a number of messages from Washington and his officers and men are more than anxious for an opportunity to do something. There is a belief that some of the ships will be utilized in covering the landing of the army, the marine and the Red Cross supplies. Matanzas is generally regarded as the most likely place for this, both on account of the deep harbor and because of the distress there among the reconcentrados. The Red Cross ship *State of Texas* is still here awaiting orders and so is the *Panther* with nearly 700 marines.

The *Vicksburg*, which arrived on Sunday from Norfolk, was in a tremendous storm off Hatteras, losing a boatswain overboard.

It is reported that the *Iowa* is to be detached from the North Atlantic squadron to join the flying squadron. She is taking a dock load of coal in addition to 1700 tons she carried in her bunkers. She had 700 or 800 tons when she arrived. She would hardly have come in for coal if she were to stay on blockade duty, and it seems likely therefore she is going a considerable distance. The *New York* and the *Indiana* are also taking on dock loads of coal. It will be a simple matter to cover the landing of troops without the aid of the battleships and the flagship.

The torpedo boat *Cushing* has gone to join the fleet, her machinery being in fine trim again. The *Winslow* also has returned to her station.
